

## JUST THE FACTS: HELPING YOU TALK ABOUT MONEY

### Background:

- CPA Canada's ***Just the Facts*** initiative provides straightforward, plain-language explanations of common financial terms and concepts.
- Objective and neutral, *Just the Facts* covers topics that are dealt with in the financial world every day, but are often unclear to many Canadians.
- By demystifying jargon, *Just the Facts* aims to improve financial literacy, giving people better understanding and confidence in money matters – empowering them to ask the right questions and make informed decisions.
- As part of CPA Canada's financial literacy program, which includes in-person education sessions and a Financial Wellness Guide, *Just the Facts* is a primer for financial learning.
- Visit [www.cpacanada.ca/justthefacts](http://www.cpacanada.ca/justthefacts).
- There are currently 24 *Just the Facts* topics. (\* indicates Infographic available)
